

Consultations in the field of statistics, methodology and psychometrics conducted at our Faculty

Consultations in the academic year 2024/2025 are conducted by three people and take place during regular shifts:

Adrianna Wielgopolan, MA - **Thursdays 4:30pm - 6:30pm** (room 308, 3rd floor); scope of consultations provided: quantitative statistics; consultation of experimental and questionnaire studies; preparation of research in Qualtrics and Gorilla; methodological consultations

Dominika Adamczyk, MA - **Wednesdays 1:00 pm - 3:00 pm** (room 319, 3rd floor); scope of consultations provided: quantitative statistics; qualitative research methods (consultations on research questions, creating an interview scenario, post-interview consultations - discussion of analysis strategies, material analysis, also computer-assisted), Qualtrics

Maciej Pastwa, MA - **Tuesdays 10 - 12 am** (room 308, 3rd floor); scope of consultations provided: methodological consultations of experimental, quantitative and qualitative research; preparation of research procedures in Google Forms/Qualtrics and PsychoPy; quantitative, multivariable statistics, visualisation of results

The consultations are addressed to people studying, pursuing a doctorate and working at the Faculty - we will be happy to help discuss all doubts related to conducting research and analyzing the results obtained. To make an appointment, please send an e-mail to konsultacje.statystyczne@psych.uw.edu.pl with a short description of the consultation topic and preferred date; for consultations intended to help with data analysis, please prepare hypotheses (in the case of students - approved by the supervisor) and a database. Feel free to contact us! :)
